

META LIND SOLUTIONS

EXPERIENCE YOU CAN TRUST DISPUTE INTERVENTION

Do you feel like you are being bullied by one of the telecom giants with nowhere to turn? Has legal or finance told you they don't know how to help? If so, you are not alone.....

The telecom industry is very complex. Rules and regulations from State and Federal agencies are there to help you, but few have the knowledge and experience required to understand and apply them.

- Are you unable to resolve issues?
- Are you paying the carriers without understanding what you are paying for?
- Have your rates increased with no explanation?
- Is your carrier unresponsive to your inquiries?
- Are changeovers in account representatives resulting in off contract rates?
- Will your carrier only give you adjustments if you sign another contract?

If you are experiencing these or similar problems, there is a very good chance we can intervene on your behalf. We've helped others in similar situations and can help you too.
